BORGO SAN PIETRO

For the past five years, I supported Borgo San Pietro del Palio di Asti APS in **PR, event coordination** and cultural heritage communication.

My activities include **event concept development, operational coordination** and **the preparation of the annual historical cortège** — from costume archive management to **fitting coordination**.

CULTURAL EVENT COORDINATION SUPPORT

The coordination process behind a series of cultural events organised in the week leading up to the Palio di Asti. A series of **cultural and entertainment events** spanning seven consecutive days, with audiences of up to **300 guests per event**.

Phase Activities

3 months before	Sponsor outreach to approximately 10 partners Budget planning Event concept development and visual direction support
1 month before	Supplier confirmation Communication planning Promotional materials
Palio Week	Daily on-site coordination across 7-8 consecutive events
During events	Guest management Timing coordination Real-time problem solving
Post-event	Feedback collection

The week preceding the Palio di Asti is a series of **cultural and entertainment events** bringing the city together in anticipation of the race.

Each edition involves coordinating **multiple events across seven consecutive days**, managing timelines, suppliers and on-site logistics.

CORTÈGE COORDINATION SUPPORT

Borgo San Pietro’s annual historical cortège at the Palio di Asti — **coordination process across 50 costumed participants**, each styled with a complete look.

Phase Activities	
Beginning of the year	Theme concept development and creative direction support for the cortège
3–4 months before	Costume fittings for 50 participants Wardrobe coordination Accessories and props production
1 week before	Full rehearsals with participants Final costume checks
Day of the event	Morning preparation of all 50 looks Hair and makeup coordination On-site styling management Costume restoration
Post-event	Full archiving of approximately 100 pieces

A **centuries-old tradition**, the historical cortège through Asti's city centre is unique in its kind.

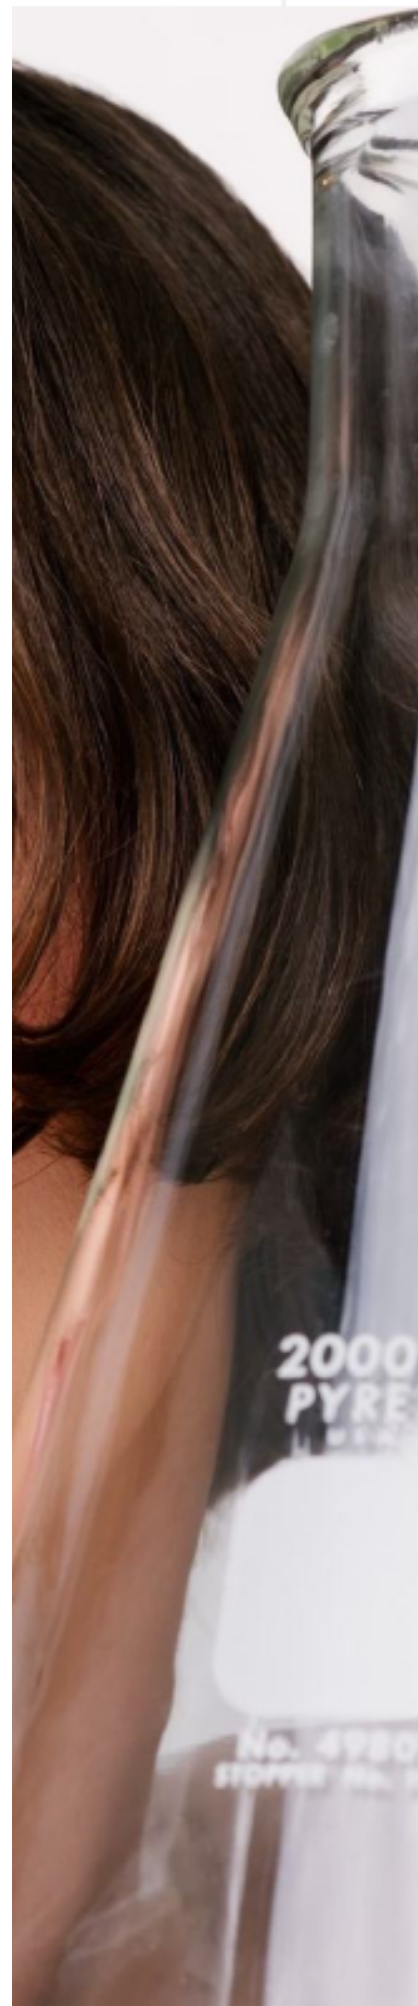

Each year it involves months of preparation — costume archive management, **fitting coordination** across 50 participants and meticulous **attention to every detail** of the final procession.

CLIENT DECKS & EVENT SUPPORT

At TERRA Innovation Studio, I supported the creation of **client-facing materials** across beauty research, presentation design and **event-related projects**.

My work included visual trend reports, **industry event presentations** and **programme decks** for week-long beauty innovation activities, combining research, visual organisation and clear storytelling.

INDUSTRY CONFERENCE DECK

MakeUp in NewYork 2025

Supported the development of visual presentation materials for a **makeup industry conference** in New York, helping organise beauty research content into a clear, **visually consistent deck designed** for a live presentation context.

K-BEAUTY IN THE U.S.

INCLUSIVE SEMI-MATTE CUSHION

Driven by Gen Z creators on TikTok, the demand for wider shade ranges and global skin tone compatibility has pushed K-beauty brands to rethink their complexion offering within the US Market.
"The key difference between the first and second waves is TikTok-fueled demand from consumers of all ethnicities and skin tones," – Vogue US, November 2024.

The hashtag #CushionFoundation on TikTok has over 183 million views.
Mesh Cushion Foundation is a rising star trend in the USA according to Spate.

BEAUTY TREND REPORTS

Developed for international beauty clients, these reports were based on ongoing research into US beauty trends, consumer behaviours and newly launched products.

My work focused on **translating findings into structured, visual and client-ready materials** through trend mapping, product scouting and clear presentation design.

TERRA

U.S. MAKEUP DYNAMICS

THE “JE NE SAIS QUOI” AESTHETIC

The French aesthetic embodies **simplicity, efficacy, and timeless allure**. Rooted in the iconic French pharmacy tradition, it resonates globally with consumers seeking safe, chic beauty. Viral trends like **#FrenchPharmacy** on TikTok amplify its influence, reshaping retail strategies.

Credo Beauty is tapping into this momentum with a new capsule collection featuring brands like Verdoie. By blending clean, sustainable innovation with classic efficacy, Credo engages consumers, especially Gen Z, by offering conscious choices in a crowded beauty market.

Victoria Beckham Beauty
Color Wash Liquid Blush

It is formulated with **sea water sourced from the rocky cliffs of northern France** for mineral-rich hydration.

FACE MAKEUP TRENDS | HYPER-LUXURY

BEAUTY INTO HYPER-LUXURY

Hyper-luxury beauty is **expanding the meaning of exclusivity**, merging care, timeless design, and innovation. In 2025, **the category goes beyond products to offer aspirational experiences** that turn beauty into a statement of artistry, status, and **personal distinction**. As economic uncertainty reshapes consumer behavior, wealthy audiences are shifting their spending habits: they increasingly invest in high-quality, long-lasting beauty products that deliver **tangible results**. Hyper-luxury beauty responds to this demand by creating rare, highly curated offerings, setting new benchmarks for desirability, craftsmanship, and prestige in the industry.

Sisley Paris
Phyto-Teint Primer Matte
\$120.00

This lightweight **gel primer** instantly refreshes and mattifies skin with a second-skin finish. Enriched with Sisley's Ideal Skin Complex, it **improves skin texture over time** and visibly minimizes pores for **long-term benefits**.

Sisley Paris
Phyto-Teint Primer Glow
\$120.00

Its peach-toned formula glides effortlessly for a naturally radiant, glowy finish. Its **iridescent texture** enhances natural luminosity. It delivers **long-term skincare benefits** for a visibly plumper and more radiant complexion.

Chantecaille
Future Skin Gel Foundation
\$95.00

Infused with a **plant-based retinol alternative**, hydrating **Spirodela Polyrhiza extract** and soothing **Chaga Mushroom extract**, it leaves skin looking flawless and fresh.

Victoria Beckham Beauty
The Foundation Drops with TFC8®
\$110.00

More than makeup, it is **rejuvenating skin care**. Augustinus Bader's proprietary **TFC8® technology** supports **cellular renewal and barrier health over time**.

Clé de Peau
Translucent Loose Powder Light
\$125.00

A **ultra-luxurious** refillable loose powder that delivers a luminous, flawless finish.

Translucent Filter Formula: smooths over skin and delivers skincare benefits. **The voluminous puff** is crafted by Nishijin artisans for effortless application.

TERRA

IF LIGHT IS ALL WE ARE

Exhibition design project developed as an individual thesis in collaboration with **Castello di Rivoli - Museo d'Arte Contemporanea**.

From concept development and visual identity to the spatial design of the **interactive exhibition**, the project was guided by the goal of **bringing contemporary art to life in a new way** - making it accessible and engaging for a broader audience.

The project explored how spatial design and visual storytelling can shape an **engaging audience experience**.

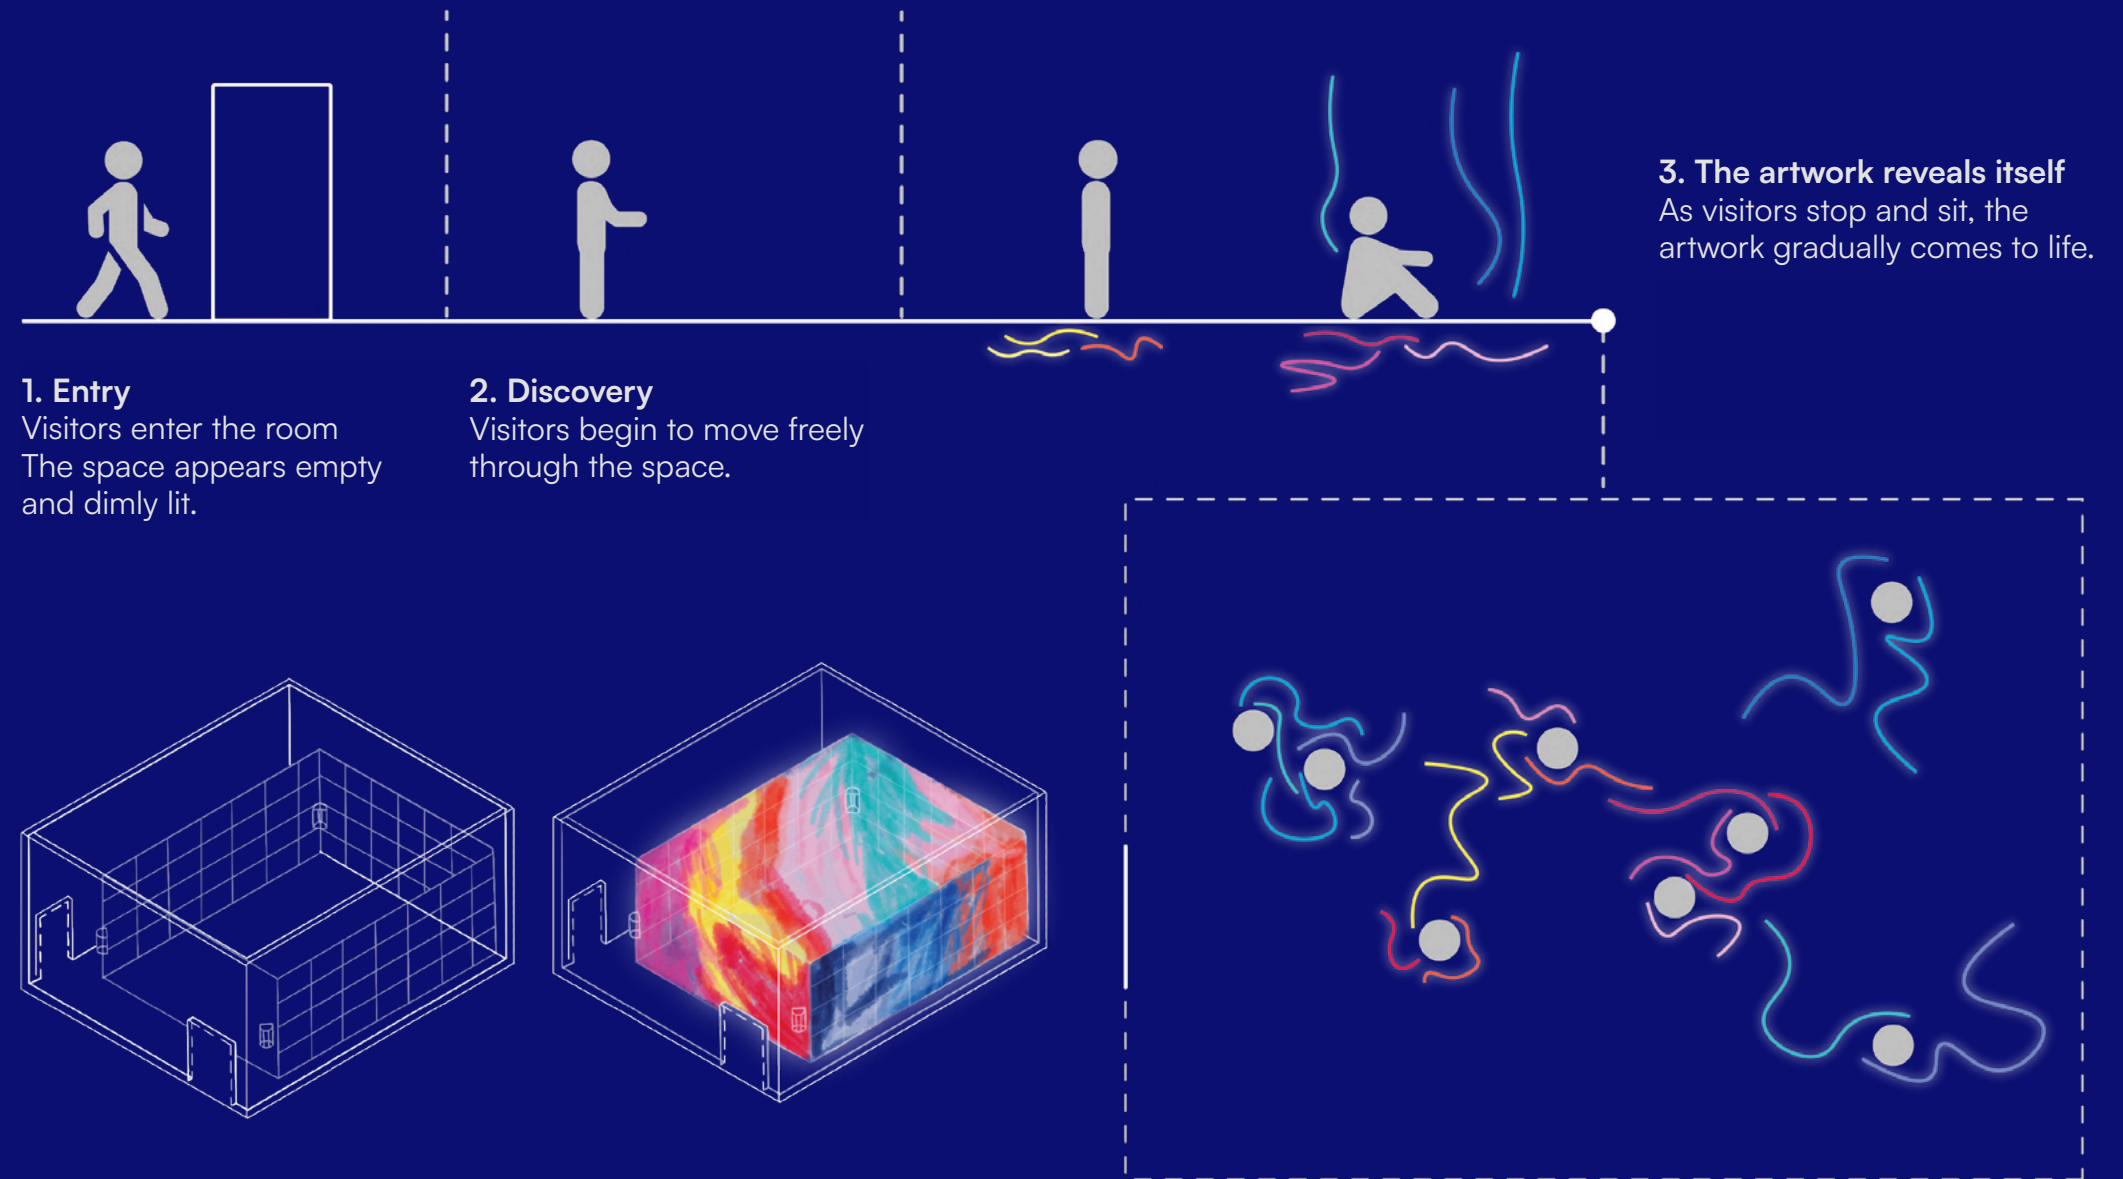

EXHIBITION CONCEPT

The exhibition offers visitors a new experience, positioning them as **co-creators** of the artwork.

The core insight, captured in the phrase “**You are art too**”, shifts the focus away from the artwork itself to **highlight the importance of the observer** — whose presence gives the work its meaning.

The concept stems from the search for an **engaging** and immediate theme to experience within the exhibition space: energy, understood as inner light. Hence the exhibition title: “**If Light Is All We Are**”.
